# WORLD SOCIETY FOR VIROLOGY

## 3<sup>rd</sup> INTERNATIONAL CONFERENCE

### WSV2025

Co-organizers

06~08 MAY  
**2025**

KUALA LUMPUR,  
MALAYSIA

Dear Sponsor,

We are writing with a great opportunity for your company/organization like to introduce itself and its products to the global virology community and help the world to be better prepared for future emerging viruses. This is possible if you choose to support the non-profit World Society for Virology (WSV) 3rd international 3-day scientific conference: “ **THE VIROSPHERE OF OUR CELLULAR WORLD**”, which will be held on-site in the beautiful city of [Kuala Lumpur, Malaysia](#), on MAY 06-08, 2025: <https://ws-virology.org/3rd-conference-wsv2025/> The main objective of the meeting is to present the latest scientific discoveries from virologists around the world, and serve as a forum to connect virologists from different fields of human, animal, plant, and microbe virology in a post-pandemic world.

In particular, sponsoring this conference will provide your organization a number of benefits and uniquely enhanced exposure in addition to supporting a good cause:

- WSV is uniquely positioned with a large international membership of over 2000 virologists, and has partnerships with 19 regional virology societies to provide a platform that will enable maximal exchange of information within the diverse fields of virology worldwide.
- This meeting will cover all aspects of virology, including health (such as diseases, diagnostics, vaccines, antivirals and gene/oncolytic/phage therapy in humans, animals, poultry, fish, and plants, as well as bacteriophages), environmental, and basic molecular virology, with a special session on One Health and Global Pandemic Threats.
- This meeting will further allow for rapid and efficient communication among virologists worldwide.

For many virologists in developing countries, it will be difficult to travel to an international meeting. Their participation would be of utmost importance to identify and combat both local devastating epidemics and future pandemic threats. We are therefore seeking sponsorships to enable their travel, and to expand the meeting with an additional virtual platform, allowing virologists worldwide to also participate online. Multiple different sponsorship options are available. Sponsorship will include your organization's logo in our meeting program, website, social-media announcements, and e-newsletters to all our >2000 members in 93 countries, the virology networks of our members in the organizing committee and WSV partnering organizations, as well as all registered attendees.

We are specifically looking for sponsors to contribute to enable us to:

- Provide travel scholarships for PhD students & post-docs
- Provide travel scholarships for researchers from low-income countries
- Provide stipends for distinguished keynote speakers

The goal of WSV is to enhance virology networks globally; and therefore WSV has never charged a membership fee. The success of this meeting is highly dependent on generous donations and sponsorships from organizations like yours. Please consider donating to help advance the study of virology and better position the world for future emerging viruses.

Sincerely yours,

**World Society for Virology**
